Westward Bound Tour

Union Pacific's legendary Big Boy No. 4014, the world's largest operating steam locomotive built to conquer mountains, will make 19 whistle-stops in five states this summer during its 2024 Westward Bound Tour from Wyoming to California. In addition, this mighty steam locomotive will be on public display for two days each in Roseville, California, July 12-13, and Ogden, Utah, July 20-21.

Big Boy will leave its home base in Cheyenne, Wyoming, on June 30, traveling across Wyoming, Utah, Nevada, California and Idaho during July. Display days in Roseville and Ogden offer an up-close look at the 1.1-million-pound marvel along with the "Experience the Union Pacific" rail car, a captivating walk-through exhibition that provides a unique glimpse into the rich history of railroading.

During the tour, the Union Pacific Museum will host a special passenger trip. The unique experience is the annual gala fundraiser for the nonprofit organization and provides a rare opportunity to travel on this historic heritage equipment. More information and ticket information will be posted at www.UPtraintix.org as the tour gets closer.

Key Definitions

On Display Admission to display days are free (no tickets required), though parking at surrounding parking facilities may involve a charge. These are the best times to see the Big Boy.

Passenger Excursion While listed on the steam schedule, passenger excursion tickets are sold by outside entities -- **not** Union Pacific -- and are not available on the day of the excursion.

Overnight Stops Locations where the Big Boy stops overnight are closed to the public due to safety and security reasons, unless otherwise noted on the schedule. Non-employees who access these locations without permission will be treated as trespassers.

A Safety Message from the UP Steam Team

Future Schedules

This fall, Big Boy No. 4014 will head out again with stops in Texas, Arkansas, Kansas, and Illinois, among other states. Details of this second tour will be released later this spring.

Last fall, we had anticipated including Boise, Idaho, and Portland, Oregon on the Westward Bound tour. As planning continued, we determined that the network capacity on our northern corridor could not accommodate Big Boy No. 4014 along with anticipated demand on a single track. Our goal is to share the Big Boy with as many rail fans as possible across our network, and we look forward to seeing everyone track side – 25 feet back this summer and fall.
